

Qualitative Generation Examples (Epoch 10 Checkpoint)

Good — short accurate

Audio 1: Water flowing over rocks in a stream

Audio 2: Cars driving on a wet road

Generated: "b) water flowing, while the second audio features traffic noise"

Good — descriptive

Audio 1: Birds chirping in a forest

Audio 2: Rain falling on leaves

Generated: "b) birds chirping in the first audio, while the second features rain falling"

Partial — format bias

Audio 1: Calm wind in an open field

Audio 2: Busy city street with traffic

Generated: "c) calm "

Partial — incoherent jargon

Audio 1: Metal tools clanging in a workshop

Audio 2: Someone walking on gravel

Generated: "high-8 khz. the listener. The loudness and animal sounds of calmness"

Poor — incomplete

Audio 1: A dog barking outdoors

Audio 2: Children playing in a park

Generated: "The audio "
